The screenshot displays the UTRADE app interface. At the top, there's a navigation bar with the UTRADE logo, a 'Home' label, and a search icon. Below this, a summary card shows the Portfolio Value at 46,530.27 SGD, Unrealized Profit/Loss at +14,588.99 SGD, and Cash Balance at 0. A 'Quick Links' section contains four buttons: 'Top Movers', 'Market Indices', 'Your Orders', and 'Show All'. The main 'Portfolio' section features a table with columns for Company Name, Market Value, Last Price, and % Return. The table lists 'DBS Group Hol...' with a market value of 46,358.00 and a return of +46.03%. A bottom navigation bar includes icons for Home, Markets, Trade, and Menu.

Company Name Ticker / Ccy	Market Value Cost	Last Price Avg Cost	% Return Profit / Loss
DBS Group Hol... D05 (SGD)	46,358.00 31,744.56	35.650 24.419	+46.03% +14,613.44
Total (SGD) Cost	46,358.00 31,744.56	% Return Total P&L	+46.03% +14,613.44
Grand Total (SGD) Grand Total Cost	46,358.00 31,744.56	% Return Total P&L	+46.03% +14,613.44

To provide key and snapshot portfolio information for users:

- Portfolio* Performance:** This section provides an overview of the performance of your current portfolio holdings. Key metrics include:
 - Current Portfolio Value: The total value of the portfolio based on the current market prices of the holdings.
 - Unrealized Profit and Loss (P&L): The potential profit or loss would incur if the you were to sell all your holdings at the current market prices.
 - Cash Balance.
- Quick Links:** One-click access to those commonly used features of the app quickly and conveniently, features like:
 - Top Movers: Stay informed about stocks experiencing significant price movements.
 - Market Indices: Track major market indexes.
 - Order History: Review past orders and transaction history for easy reference.
- My Orders:** View your order status.

**Note*

UTRADE Portfolio is an indicative tool and should not be relied upon in any way for determining the user's actual shareholding or unrealised profit or loss. UOBKH accepts no responsibility or liability whatsoever for any losses or damages resulting from the use of or reliance on this feature.

Portfolio – Manually add Bought / Sold

The screenshot shows the 'Add Records' form in the UOB Kay Hian Portfolio app. The form is titled 'Portfolio' and has a search icon in the top right. Below the title, there are tabs for 'Realized P/L', 'Custody Holdings', 'E-Statement', and 'Add Records'. The 'Add Records' tab is active. The form contains the following fields:

- Action***: Two buttons, 'Bought' (highlighted in green) and 'Sold'.
- Ticker/Exch***: A text input field with the placeholder 'Enter Stock' and a search icon.
- Quantity***: A numeric input field with a minus sign on the left and a plus sign on the right, and the placeholder 'Enter Value'.
- Price**: A numeric input field with a minus sign on the left and a plus sign on the right, and the placeholder 'Enter Value'.
- Total**: A text input field.
- Mode**: A dropdown menu with 'Cash' selected.
- Date**: A date input field with '15/05/2024' selected.
- Contract No.**: A text input field.

At the bottom of the form, there are two buttons: 'Clear' and 'Add'.

At the bottom of the app, there is a navigation bar with four icons: Home, Markets, Trade, and Menu.

- You can manually add buy/sell records (e.g. for SGX corporate actions):
 1. **Action:** Select Bought or Sold.
 2. **Ticker/Exchange:** Search for the desired instrument.
 3. **Quantity:** Enter the number of shares.
 4. **Price:** Enter the price.
 5. **Total:** The notional value of the instrument.
 6. **Mode:** Select Cash, CPF, SRS.
 7. **Date:** Enter in DD/MM/YYYY format.
 8. **Contract No:** Enter any remarks in this field (e.g. 10 for 1, bonus , etc).

Portfolio – E-Statement

You can conveniently access to various statements :

1. **Contra Statement**
2. **Contract Statement**
3. **Monthly Statement**

- To access the statements, select the type of statement you wish to view (Contra, Contract, Monthly) from the dropdown menu.
- Specify the desired date range for the report, if applicable.
- Click Done to apply the changes.

2. Peer Comparison:

Comparison with Peer Companies: Allows you to compare the selected stock with its peer companies based on the TRBC classification. This enables you to assess the company's performance relative to its industry peers.

Sorting Options:

Sorting Criteria: Provides sorting options that allow you to rearrange the list of peer companies based on specific criteria such as company overall score (default), analyst rating, PE Ratio (PER), market capitalisation, and 1 year/month price performance. This flexibility enables users to prioritise and analyse peer companies according to their preferences.

Making Informed Decisions:

Utilize the insights gained from sector and peer comparisons to make informed investment decisions, identify trends, and evaluate relative performance.

Consider historical performance, company scores, and peer comparisons when formulating investment strategies and managing your investment portfolio effectively.

Stock Details – Analyst Rating (powered by LSEG)

Analyze broker recommendations to gauge analyst sentiment and consensus towards the selected company's stock. Review the historical trend of broker recommendations to identify any shifts or patterns in analyst sentiment over time. This can provide insights into changing market dynamics and investor sentiment.

1. Analyst Rating:

Broker Recommendations: Displays broker recommendations collected from analysts, categorized as Strong Buy, Buy, Hold, Reduce, and Sell. These recommendations provide insight into analyst sentiment towards the selected company's stock.

Historical Trend: Provides the historical trend of broker recommendations over the past 1 month, 2 months, and 12 months. This allows users to track changes in analyst sentiment over time and identify potential shifts in market perception.

2. Target Price:

Broker Consensus Target Prices: Displays the broker consensus target prices, including the following information:

Average Target Price: The average target price forecasted by analysts covering the stock.

Highest Target Price: The highest target price forecasted by any analyst.

Lowest Target Price: The lowest target price forecasted by any analyst.

Potential Upside: The percentage difference between the current stock price and the average target price, indicating the potential upside for investors.

☆ 🔔 Buy Sell

Traders can view the Time & Sales feature to monitor real-time market activity, identify trends, and make trading decisions based on the flow of buy and sell orders. By observing the sequence of trades and the associated price and volume data, traders can gain insights into market sentiment, liquidity, and price movements, helping them execute trades more effectively.

1. Tracking Trading Activity:

Real-Time Updates: The Time and Sales feature provides real-time updates on the trading activity of the selected stock.

Recent Trade Records: Displays the most recent 20 records of trade data for the selected stock, allowing you to monitor the latest trades executed in the market.

Automatic Refresh: The page automatically refreshes every 1 minute to ensure that you have access to the most up-to-date trade data without manual intervention.

2. Displayed Information:

Trade Price: Shows the price at which each trade was executed, providing insight into the price levels at which buying and selling activity is occurring.

Up/Down Indicator: Indicates whether each trade occurred at a price higher (up) or lower (down) than the previous trade, giving you a quick visual cue of price movements.

Trade Size: Displays the number of shares traded in each transaction, allowing you to assess the volume of buying and selling activity.

Execution Time: Shows the timestamp indicating when each trade was executed, providing a chronological view of trading activity over time.

☆ 🔔 Buy Sell

Provides you with a detailed view of buy and sell orders for a particular security, such as a stock or an option, at various price levels. It offers transparency into the supply and demand dynamics within the market by showing the number of shares or contracts being bid for and offered at each price level.

1. Tracking Bid/Ask Queue:

Bid and Ask Prices: The Market Depth feature displays the current bid prices (the prices buyers are willing to pay) and ask prices (the prices sellers are willing to accept) for the security.

Bid and Ask Order Size: Displays the size of buy and sell orders for up to 10 price levels, giving you the insight into the depth of demand and supply at different price points.

2. Supported Markets:

Singapore, Bursa and Hong Kong: The Market Depth feature supports tracking bid and ask queues for stocks listed on the Singapore, Bursa and Hong Kong markets. This allows you to monitor order flow for securities traded on these exchanges.

Home Markets Trade Menu

1. Viewing Orders History:

Order Details: The My Orders Page displays your order history, including details such as order status, order price, quantity, and the last price of the instruments.

Filtering Options: You can filter your order history by various criteria, including:

Today or Last 7 Days: Choose to view orders placed today or within the last 7 days.

Account: Filter orders by trading account.

Order Type: Filter orders by order type (e.g., basic orders, time-in-force orders, conditional orders, stop-loss orders).

Order Status: Filter orders by status (e.g., pending, filled, cancelled).

2. Viewing, Amending or Canceling Orders:

For orders that are still in pending status, you have the option to amend or cancel them.

3. Daily Summary Section:

Provides a summary of your daily trades, allowing you to quickly review your trading activity for the day.

Settings – Alert Criteria

The screenshot shows the 'Alert Criteria' settings page. At the top, there is a header with the UOB Kay Hian logo and the text 'Alert Criteria'. Below the header, a dark grey bar contains the instruction 'Please fill up all fields to set alert'. The main form consists of four input fields: 'Stock' (a text input with a search icon), 'Criteria' (a dropdown menu showing 'Price is Greater than or Equal'), 'Value' (a range input with minus and plus buttons and the text 'Enter Value'), and 'Frequency' (a dropdown menu showing 'Once a day'). A green 'Add New Alert' button is positioned below these fields. Underneath the form is a section titled 'Active Alerts' with the text 'There are no active alerts'. At the bottom of the screen, there is a 'Save' button and a navigation bar with icons for Home, Markets, Trade, and Menu.

1. Setting Price Alerts:

Select Stock: Choose the stocks for which you want to set price alerts.

Criteria: Specify the criteria for triggering the price alert. You can choose from the following options:

Price Greater Than or Equal To: Set an alert to trigger when the stock price reaches or exceeds a specified value.

Price Less Than or Equal To: Set an alert to trigger when the stock price falls to or below a specified value.

Price Equal To: Set an alert to trigger when the stock price equals a specified value.

Percentage Price Increase from Intra-day Low Greater Than or Equal To: Set an alert to trigger when the percentage increase in price from the intra-day low reaches or exceeds a specified threshold.

Settings – Alert Criteria

The screenshot shows the 'Alert Criteria' settings page in the UOB Kay Hian mobile app. At the top, there is a header with the UOB Kay Hian logo and the text 'Alert Criteria'. Below the header, a dark grey bar contains the instruction 'Please fill up all fields to set alert'. The main form consists of four rows of input fields: 'Stock' with a search icon, 'Criteria' with a dropdown menu showing 'Price is Greater than or Equal', 'Value' with a range selector (minus and plus buttons) and the text 'Enter Value', and 'Frequency' with a dropdown menu showing 'Once a day'. A green 'Add New Alert' button is positioned below these fields. Underneath the form is a dark grey bar labeled 'Active Alerts' with the text 'There are no active alerts'. At the bottom of the form is a grey 'Save' button. The bottom navigation bar includes icons for 'Home', 'Markets', 'Trade', and 'Menu'.

2. Managing Price Alerts:

Viewing Alerts: Once set, your price alerts will be listed on the Price Alerts Page, allowing you to easily monitor them.

Editing or Deleting Alerts: You can edit or delete existing price alerts as needed, providing flexibility in managing your alerts based on changing market conditions or trading preferences.

3. Trigger Price:

Trigger Price Alert Notifications: When a price alert is triggered, you will receive a notification via your preferred communication channel (e.g., email, mobile app notification), alerting you to the price movement.

User Preferences

1. Customizing Preferences:

Language: Choose your preferred language for the mobile app's interfaces. You can switch between English and Simplified Chinese to ensure a comfortable user experience.

Font Size: Adjust the font size to suit your readability preferences. Select from options among Small, Medium, and Large to customize the text size throughout the app.

Biometric Authentication: Enhance the security and convenience of logging in to the app by toggling biometric authentication options, such as Face ID or Touch ID. This feature allows for quick and secure access to your account.

Updated Interface: Once your preferences are saved, the mobile app's interfaces will reflect your chosen language and font size settings.

Convenient Authentication: If you opt for biometric authentication, you can enjoy the convenience of using Face ID or Touch ID to securely log in to the app without the need for manual entry of login credentials.

Notifications

2. Notifications

Register to receive notifications from the app.

Main Menu page

To access the main menu, locate and tap on the menu icon (typically represented by three horizontal lines or a grid icon) located in the bottom tab of the app interface. Tap on any feature in the menu to navigate directly to that section of the app.

Main Menu Features:

Market Info: Access real-time market information, including top movers, indices, market summary, to stay updated on market trends and developments.

Watch List: View and manage your watch lists, which allow you to monitor the performance of selected stocks.

Orders: Place, monitor, and manage your buy and sell orders.

Portfolio: Review and manage your investment portfolio, including holdings, positions, performance metrics, and unrealised/realised gains and losses.

Account Management: Access cash balances, account activities, outstanding positions, TR details, change ID & password.

Information: Stay informed about market alerts, announcements, and important updates relevant to your trading activities.

Settings: Customize your app experience by adjusting preferences such as language, font size, biometric, notifications and price alerts.

Logout: Securely log out of your account to protect your personal and financial information when you're done using the app.
