

## Steps to Change Your MT4 Master Password (iOS device)

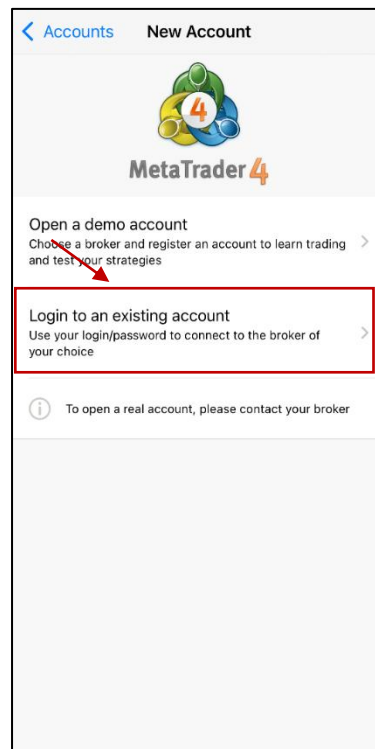

1. Launch the MetaTrader 4 (MT4) application on your iOS device.

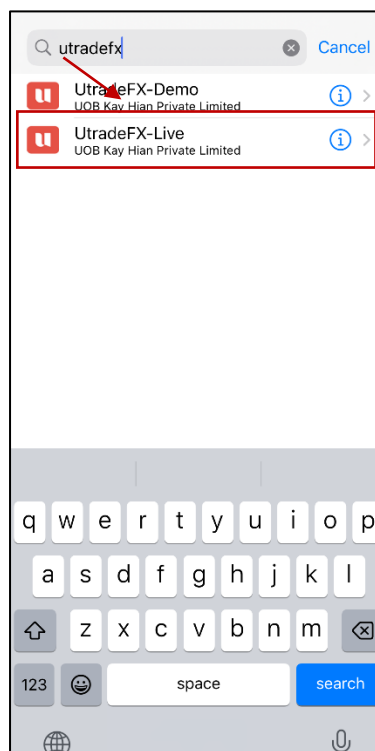

2. Tap 'Cancel' when prompted.

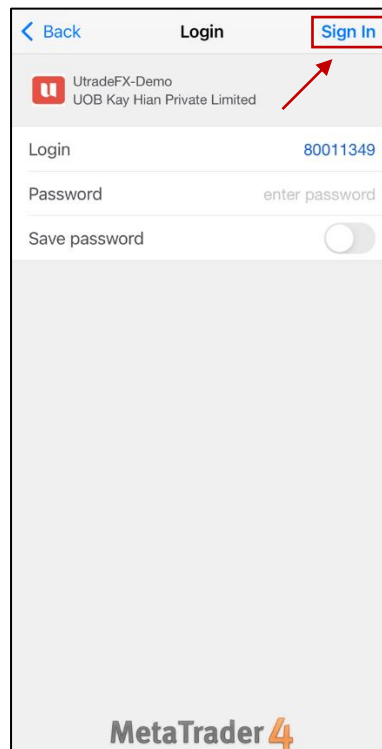

3. Select 'Login to an existing account'.

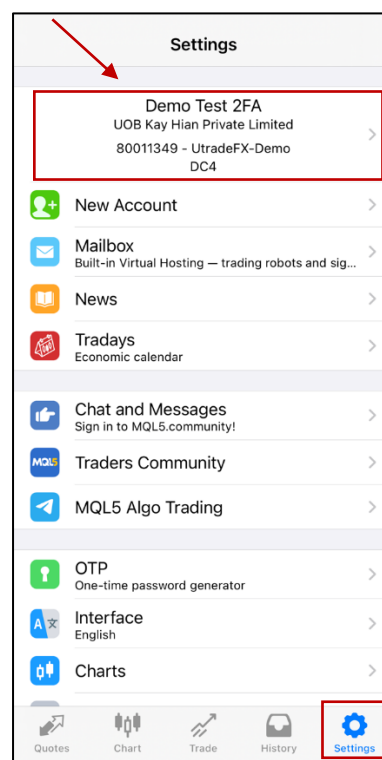

4. In the search bar, type 'UTRADEFX' and select 'UTRADEFX-Live'.

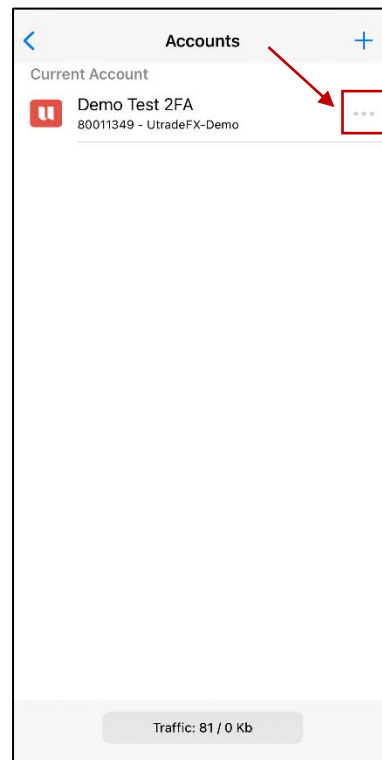

5. Enter your MT4 Account ID and Master Password, then tap 'Sign In'.

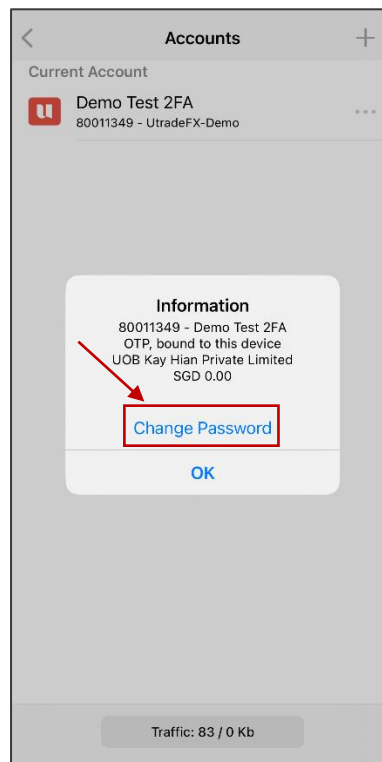

6. Once logged in, go to 'Settings' and tap on your account details displayed at the top of the screen.

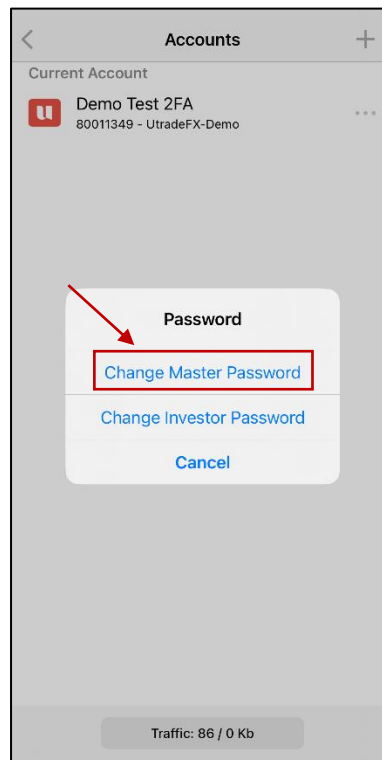

7. Tap the three-dot icon on the right of the MT4 Account ID.

8. Select 'Change Password'.

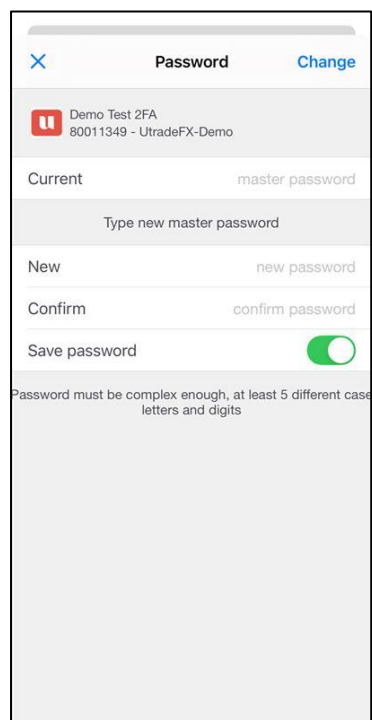

9. Select 'Change Master Password'.

10. Enter the following:

- Your current master password
- Your new master password (enter twice to confirm)

Then tap 'Change'

11. A pop-up message will confirm that your password has been successfully updated. Tap 'OK'.
